## SUBJECT INDEX

- <sup>14</sup>C fatty acids into bovine sebaceous gland and dermal lipids, Incorporation in vitro of 341
- <sup>131</sup>I-hippuran blood clearance in healthy dogs and in dogs with proteinuria, analysis of: Assessment of renal blood flow in dogs 1
- Aerosol challenge, Effect on a population of free lung cells in parentally immunised calves 243
- Amino acid transportation variation in equine erythrocytes, Breed and species comparison of 346
- Angiographic investigation of the vessels associated with physis in young pigs 151
- Arprinocid and decoquinat in the chicken, development of resistance of *Eimeria tenella* to 226
- Assessment of renal blood flow in dogs: analysis of <sup>131</sup>I-hippuran blood clearance in healthy dogs and in dogs with proteinuria 1
- Attempted infection of calves with *Taenia crocutae* cysticerci and their subsequent serological response 383
- Botulism among penned pheasants and protection by vaccination with C1 toxoid 104
- Bovine respiratory syncytial virus infections, Comparison of a newly developed enzyme-linked immunosorbent assay with complement fixation and neutralisation tests for serology of 334
- Breed and species comparison of amino acid transport variation in equine erythrocytes 346
- Brucella abortus* serum agglutination test, Reduction of non-specific reactions to, by the addition of EDTA 288
- Brucella canis* and *Brucella ovis* cultures, Use of phage for the identification of 35
- Brucella* species, Urease activity of 252
- Bursal disease virus, infectious, Detection of antibodies against: a comparison of three serological methods 189
- Callithrix jacchus jacchus* (common marmoset), Haematological characteristics of 109
- Campylobacter fetus* in bovine vaginal mucus, Enzyme-linked immunosorbent assay for 41
- Canine glycogen storage disease type II: Heterozygote detection in a family of Lapland dogs with a recessively inherited metabolic disease 174
- Canine parvovirus-2 in dogs, Pathogenesis of: haematology, serology and virus recovery 134
- Canine parvovirus in dogs, Pathogenesis of: histopathology and antigen identification in tissues 141
- Cardiopulmonary effects of a xylazine and ketamine combination in pigs 30
- Cervus elaphus* (red deer), Pharmacokinetics of oxfendazole in 231
- Cholecystitis, Experimental, in goats caused by mature *Fasciola gigantica* 292
- Columba livia domestica* (racing pigeon), Electrocardiogram of 275
- Comparison of a newly developed enzyme-linked immunosorbent assay with complement fixation and neutralisation tests for serology of bovine respiratory syncytial virus infections 334
- Decoquinat and arprinocid in the chicken, development of resistance of *Eimeria tenella* to 226
- Demonstration of IgA-containing cells in the small intestine of lambs infected with *Nematodirus battus* 373
- Detection of antibodies against infectious bursal disease virus: a comparison of three serological methods 189
- Development of a system for genetic and molecular analysis of *Streptococcus agalactiae* 202
- Diarrhoea, neonatal, in calves, Serological comparison of the *Escherichia coli* prototype strains for the F(Y) and Att 25 adhesins implicated in 246
- Dopaminergic CNS structures in sheep, Presynaptic stimulation of, as a mechanism of immobilising action of Immobyl (fentanyl + azaperone) 179
- Eastern equine encephalomyelitis virus, Immunological response of chickens to 65
- Effect of aerosol challenge on a population of free lung cells in parentally immunised calves 243
- Effect of experimental *Ostertagia circumcincta* infection on the performance of grazing lambs 282
- Effect of oestrogen and progesterone on sodium, potassium and water balance in sheep 46
- Effects in sheep of high dietary levels of vitamin D<sub>3</sub> as measured by circulating concentrations of some vitamin D metabolites and skeletal examination 317
- Effects of secretagogues on membrane potential and input resistance of pancreatic acinar cells in sheep 250
- Eimeria maxima*, Endocrine changes in the fowl during infection with 296
- Eimeria tenella*: development of resistance to arprinocid and decoquinat in the chicken 226

- Electrocardiogram of the racing pigeon (*Columba livia domestica*) 275
- Electron microscopic study of leucocytic infiltration of the mammary teat during infection with *Staphylococcus aureus* 167
- Endocrine changes in the fowl during infection with *Eimeria maxima* 296
- Enteric colibacillosis, Protection of lambs against, by vaccination of ewes 225
- Enzyme-linked immunosorbent assay for antibodies to *Campylobacter fetus* in bovine vaginal mucus 41
- Enzyme-linked immunosorbent assay for the measurement of immunoglobulin G concentrations in porcine plasma and colostrum 279
- Enzymes, Stability and storage characteristics of, in cattle blood 301
- Enzymes, Stability and storage characteristics of, in sheep blood 307
- Eosinophilia, avian, Nuclear lobe index in 361
- Epidemiological studies of parvovirus infections in calves on endemically infected properties 234
- Epidemiology of *Nematodirus battus* infection in eastern Scotland 197
- Escherichia coli* prototype strains for the F(Y) and Att 25 adhesins implicated in neonatal diarrhoea in calves, Serological comparison of 246
- Experimental cholecystitis in goats caused by mature *Fasciola gigantica* 292
- Experimental immune complex glomerulonephritis in dogs receiving cationised bovine serum albumin 322
- Experimental pneumonia in conventionally reared and gnotobiotic calves by dual infection with *Mycoplasma bovis* and *Pasteurella haemolytica* 377
- Fasciola gigantica*, mature, Experimental cholecystitis in goats caused by 292
- Fasciola hepatica*, Identification of surface proteins of juvenile stages of 248
- Fcy positive cells, bovine, Suppressor activity of, during a persistent infection with *Mycobacterium avium* 270
- Fibroblasts, equine, cultured, Transformation with a bovine papillomavirus 241
- Glomerulonephritis, Experimental immune complex, in dogs receiving cationised bovine serum albumin 322
- Goat, pygmy, Myometrial electric activity during pregnancy and parturition in 120
- Grass sickness, acute, Unusual compound of small molecular weight in the serum of horses with 329
- Haematological characteristics of the common marmoset (*Callithrix jacchus jacchus*) 109
- Haemonchus contortus*, Influence of dietary protein on parasite establishment and pathogenesis in Finn Dorset and Scottish Blackface lambs given a single moderate infection of 6
- Heterozygote detection in a family of Lapland dogs with a recessively inherited metabolic disease: canine glycogen storage disease type II 174
- Humoral antibody response and assessment of protection following primary vaccination of chicks with maternally derived antibody against avian infectious bronchitis virus 14
- Hypomagnesaemic cows, Magnesium concentrations in the ventricular and lumbar cerebrospinal fluid of 61
- Identification of surface proteins of juvenile stages of *Fasciola hepatica* 248
- IgA-containing cells in the small intestine of lambs infected with *Nematodirus battus*, Demonstration of 373
- Immobyl (fentanyl + azaperone), Presynaptic stimulation of dopaminergic CNS structures in sheep as a mechanism of immobilising action of 179
- Immunisation, intraperitoneal and intramammary, Specific antibody-containing cells in the mammary gland of non-lactating sheep after 312
- Immunoglobulin G concentrations in porcine plasma and colostrum, Enzyme-linked immunosorbent assay for the measurement of 279
- Immunohistological studies of the local immune system in the reproductive tract of the mare 88
- Immunological response of chickens to eastern equine encephalomyelitis virus 65
- Incorporation in vitro of  $^{14}\text{C}$  fatty acids into bovine sebaceous gland and dermal lipids 341
- Influence of a 12.5 per cent rapeseed diet and an avian reovirus on the production of leg abnormalities in male broiler chicks 69
- Influence of dietary protein on parasite establishment and pathogenesis in Finn Dorset and Scottish Blackface lambs given a single moderate infection of *Haemonchus contortus* 6
- Influence of dietary protein pathophysiology of ovine haemonchosis in Finn Dorset and Scottish Blackface lambs given a single moderate infection 54
- Investigations into the association of retroviruses with ovine lymphoma 126
- Investigations into the possible role of *Mycoplasma arginini* in ovine respiratory disease 368
- In vitro activity of tiamulin against porcine mycoplasmas 124
- Ketamine and xylazine combination in pigs, Cardio-pulmonary effects of 30
- Leg abnormalities in male broiler chicks, Influence of a 12.5 per cent rapeseed diet and an avian reovirus on the production of 69
- Macrophages, bovine, from non-lactating mammary glands, Phagocytic and bactericidal properties of 160
- Magnesium concentrations in the ventricular and lumbar cerebrospinal fluid of hypomagnesaemic cows 61
- Malignant catarrhal fever-like syndrome, Transmission to sheep: preliminary experiments 22
- Marmoset, common, (*Callithrix jacchus jacchus*), Haematological characteristics of 109
- Mycobacterium avium*, Suppressor activity of bovine Fcy positive cells during a persistent infection with 270
- Mycoplasma arginini*, Investigations into the possible role of, in ovine respiratory disease 368
- Mycoplasma bovis* and *Pasteurella haemolytica*, Experimental pneumonia in conventionally reared and gnotobiotic calves by dual infection with 377
- Mycoplasmas, porcine, In vitro activity of tiamulin against 124
- Myometrial electric activity during pregnancy and parturition in the pygmy goat 120
- Nematodirus battus*, Demonstration of IgA-containing cells in the small intestine of lambs infected with 373

- Nematodirus battus* infection in eastern Scotland, Epidemiology of 197
- Neostigmine, Neuromuscular blocking action of vecuronium in the dog and its reversal by 193
- Neuraxial oedema in Poll Hereford calves, Prenatal occurrence and mode of inheritance of 96
- Neuromuscular blocking action of vecuronium in the dog and its reversal by neostigmine 193
- Neutrophilic nodules in the intestinal walls of Japanese monkeys associated with the neutrophil chemotactic activity of larval extracts and secretions of *Oesophagostomum aculeatum* 115
- Nuclear lobe index in avian eosinophilia 361
- Oesophagostomum aculeatum*, Neutrophilic nodules in the intestinal walls of Japanese monkeys associated with the neutrophil chemotactic activity of larval extracts and secretions of 115
- Oestrogen and progesterone, Effect on sodium, potassium and water balance in sheep 46
- Ostertagia circumcincta*, Effect of experimental infection on the performance of grazing lambs 282
- Ovine haemonchosis, Influence of dietary protein on the pathophysiology of, in Finn Dorset and Scottish Blackface lambs given a single moderate infection 54
- Ovine lymphoma, Investigations into the association of retroviruses with 126
- Oxfendaxole in red deer (*Cervus elaphus*), Pharmacokinetics of 231
- Pancreatic acinar cells of sheep, Effects of secretagogues on membrane potential and input resistance of 250
- Papillomavirus, bovine, Transformation of cultured equine fibroblasts with 241
- Parvoviral enteritis in calves, experimental, Pathological and virological studies of 209
- Parvovirus infections in calves on endemically infected properties, Epidemiological studies of 234
- Pasteurella haemolytica* and *Mycoplasma bovis*, Experimental pneumonia in conventionally reared and gnotobiotic calves by dual infection with 377
- Pathogenesis of canine parvovirus-2 in dogs: haematology, serology and virus recovery 134
- Pathogenesis of canine parvovirus-2 in dogs: histopathology and antigen identification in tissues 141
- Pathological and virological studies of experimental parvoviral enteritis in calves 209
- Pathology of natural rotavirus infection in clinically normal calves 264
- Phage, Use of, for the identification of *Brucella canis* and *Brucella ovis* cultures 35
- Phagocytic and bactericidal properties of bovine macrophages from non-lactating mammary glands 160
- Pharmacokinetics of oxfendaxole in red deer (*Cervus elaphus*) 231
- Physes in young pigs, Angiographic investigation of the vessels associated with 151
- Plasma enteroglucagon and neurotensin levels in gnotobiotic calves infected with enteropathogenic and non-enteropathogenic viruses 99
- Pneumonia, natural progressive, of sheep, and Precipitating antibodies in experimental visna 129
- Precipitating antibodies in experimental visna and natural progressive pneumonia of sheep 129
- Prenatal occurrence and mode of inheritance of neuraxial oedema in Poll Hereford calves 96
- Presynaptic stimulation of dopaminergic CNS structures in sheep as a mechanism of immobilising action of Immobyl (fentanyl + azaperone) 179
- Production and biological properties of M-protein of *Streptococcus equi* 184
- Protection of lambs against enteric colibacillosis by vaccination of ewes 255
- Protein metabolism in growing pigs fed corn or cassava peel based diets containing graded protein levels 259
- Racing pigeon (*Columba livia domestica*), Electrocardiogram of 275
- Red cell population distributions in healthy dogs 220
- Red deer (*Cervus elaphus*), Pharmacokinetics of oxfendaxole in 231
- Reduction of non-specific reactions to the *Brucella abortus* serum agglutination test by the addition of EDTA 288
- Reproductive tract of the mare, Immunohistological studies of the local immune system in 88
- Respiratory tract, lower, in calves and adult cattle, Scanning electron microscope study 80
- Rotavirus infection, natural, in clinically normal calves, Pathology of 264
- Scanning electron microscope study of the lower respiratory tract in calves and adult cattle 80
- Secretagogues, Effects on membrane potential and input resistance of pancreatic acinar cells of sheep 250
- Serological comparison of the *Escherichia coli* prototype strains for the F(Y) and Att 25 adhesins implicated in neonatal diarrhoea in calves 246
- Specific antibody-containing cells in the mammary gland of non-lactating sheep after intraperitoneal and intramammary immunisation 312
- Stability and storage characteristics of enzymes in cattle blood 301
- Stability and storage characteristics of enzymes in sheep blood 307
- Staphylococcus aureus*, Electron microscopic study of leucocytic infiltration of the mammary teat during infection with 167
- Streptococcus agalactiae*, Development of a system for genetic and molecular analysis of 202
- Streptococcus equi*, Production and biological properties of M-protein of 184
- Suppressor activity of bovine Fcy positive cells during a persistent infection with *Mycobacterium avium* 270
- Taenia crocutae* cysticerci, Attempted infection of calves with, and their subsequent serological response 383
- Theileria orientalis*, a cosmopolitan blood parasite of cattle: demonstration of the schizont stage 352
- Tiamulin, In vitro activity of against porcine mycoplasmas 124
- Transformation of cultured equine fibroblasts with a bovine papillomavirus 241
- Transmission of a malignant catarrhal fever-like syndrome to sheep: preliminary experiments 22
- Trichostrongyle larvae, Winter survival of: a study using tracer lambs 364

- Unusual compound of small molecular weight in the serum of horses with acute grass sickness 329
- Upper airway resistance in healthy Friesian cattle 77
- Urease activity of *Brucella* species 252
- Vaccination, primary, of chicks with maternally derived antibody against avian infectious bronchitis virus, Humoral antibody response and assessment of protection following 14
- Vecuronium, Neuromuscular blocking action of, in the dog, and its reversal by neostigmine 193
- Visna, experimental, Precipitating antibodies in, and natural progressive pneumonia of sheep 129
- Vitamin D<sub>3</sub>, Effects in sheep of high dietary levels of, as measured by circulating concentrations of some vitamin D metabolites and skeletal examination 317
- Winter survival of trichostrongyle larvae: a study using tracer lambs 364
- Xylazine and ketamine combination in pigs, Cardio-pulmonary effects of 30
